

Pacific Coast Clean Energy R&D Forum

November 28 & 29, Portland, Oregon

DRAFT AGENDA

Wednesday November 28, 2007

9:00 am -5:00 pm	Registration – Portland Hilton Executive Hotel	
10:00 am - 11:45 am	<p>Ocean Energy Our coastlines and waterways are becoming key to energy diversity as we tap into the sheer power of ocean and wave technology. Join this international panel for a look at the latest in research, development and regulatory policy that's making this exciting alternative a reality.</p> <p>Moderator: Jessica McIlroy, Project Director Ocean Renewable Energy Group (OREG)</p> <p>Speakers: Justin Klure, Executive Director Oregon Wave Energy Trust</p> <p>Allison Scott, Deputy Minister Nova Scotia Department of Energy</p> <p>Jeffrey Kallstrom Snohomish County PUD, Everett, WA</p> <p>Bertan Atalay Finnavera Renewables</p> <p>TBC California Ocean Energy Project</p>	<p>Commercial/Industrial Efficiency There's more to efficiency than environmental conscience – there's real economic gain in developing sustainable approaches to doing business. Learn first-hand how the region's business leaders are making gains in energy efficiency and economics.</p> <p>Moderator: Becky Brun, Associate Editor Sustainable Industries Magazine</p> <p>Speakers: Mike Weedall, Vice President Energy Efficiency Bonneville Power Administration</p> <p>TBC (invited) Green Building Association, BC/WA Chapter</p> <p>Dr. Soheil Asgarpour, President (invited) Petroleum Technology Alliance Canada</p> <p>Marci Burgdorf, Renewable & Alternative Power (Invited) Southern California Edison</p> <p>Bharat Patel, Chair, (invited) LA Chapter US Green Building Council</p>
<p>The 3-Minute Pitch Hear from the entrepreneurs and innovators who are bringing the newest technology to market all over the globe</p>		
12:00 pm-1:00 pm	<p>Opening Luncheon Address Challenges and Opportunities – provincial approaches to a global climate issue</p> <p>Hon. Rob Renner, Minister Alberta Department of Environment (invited)</p> <p>Mr. Greg Reimer, Deputy Minister British Columbia Minister of Energy, Mines and Petroleum Resources</p>	

Pacific Coast Clean Energy R&D Forum

DRAFT AGENDA

Wednesday, November 28, 2007

1:15 pm – 2:24 pm	<p>Biofuels The western states and provinces are fast becoming global leaders in the production and commercialization of Biofuels. Where will the competition over feedstocks lead us, and who will develop the best new technology for the liquid fuels of the future.</p> <p>Moderator: David Sjoding, Renewable Resources Specialist Washington State University (invited)</p> <p>Speakers: John Plaza, President Imperium Renewables</p> <p>Janice Larson, Director Bioenergy & Renewables, British Columbia Ministry of Energy, Mines and Petroleum Resources</p> <p>Frederick Tornatore TSS Consultants</p> <p>John Shears, Research Coordinator Center for Energy Efficiency & Renewable Technologies</p>	<p>Sustainable Transportation Transportation is still the single largest contributor to greenhouse gas emissions in North America, so solving this problem is a high priority all over the globe. How will Pacific Coast leadership shape North American policy in the future?</p> <p>Moderator: Alison Setton, Manager Hydrogen & Fuel Cells Canada</p> <p>Speakers: Cynthia Verdugo-Peralta Strategic Energy, Environmental & Transportation Alternatives (CA)</p> <p>Steve Marshall Cascadia Project</p> <p>Damon Fordham Oregon Department of Transportation</p> <p>Stephen Kukucha, Director of External Affairs Ballard Power Systems</p>
<p style="text-align: center;">The 3-Minute Pitch Hear from the entrepreneurs and innovators who are bringing the newest technology to market all over the globe</p>		
2:45 pm – 3:00 pm	Break	
3:00 pm – 4:00 pm	<p>Bullpen Session Popular Trends and Public Opinion The environment is quickly becoming a priority not just for governments, but for citizens of both countries. This Town Hall formatted discussion with opinion experts will explore how Canadian and American thoughts and attitudes towards energy and the environment are changing.</p> <p>Moderator: TBC</p> <p>Speakers: Tim Moro - Ipsos-Reid TBC, Public Policy Institute of California</p>	
4:00 pm – 5:00 pm	<p>Business Speed Dating You've seen the mini-pitches throughout the day. Now come and meet the innovators and entrepreneurs leading the way in clean technology throughout North America.</p>	
5:00 pm-7:00 pm	Welcoming Reception	

Pacific Coast Clean Energy R&D Forum

DRAFT AGENDA

Thursday, November 29, 2007

7:30-8:15 am	Continental Breakfast	
8:15-9:00 am	Breakfast Address Innovative Politics – how Oregon and Washington embrace innovation in clean energy Allan Alley, Governor’s Office, Oregon Matt Steuervalt, Governor’s Office, Washington (invited)	
9:15 pm-10:45 am	The Independents Small and medium-scale energy projects are delivering in a big way throughout the region. Meet the innovators and entrepreneurs who are leading the way, attracting headlines and investors, and meet the investors who can tell you what they’re looking for on the leading edge. Moderator: TBC Speakers: Michael Walsh, Director, Program Development (invited) Brookfield Power Corp. BC Independent Power Producers Association TBC, California Independent Energy Producers Association Dr. Wal van Lierop, President & CEO Chrysalix Energy Venture Capital	Carbon Sequestration Carbon capture and storage projects are showing tremendous potential as part of the solution to reduce the impact of greenhouse gas emissions. Learn about the latest developments from project and industry leaders throughout North America. Moderator: Scott Farris, TransCanada Pipelines Speakers: TBC, Natural Resources Canada Weyburn Carbon Sequestration Project Blaine Metting (invited) Pacific Northwest National Laboratory Jerry Fish, Stoel Rives
	The 3-Minute Pitch Hear from the entrepreneurs and innovators who are bringing the newest technology to market all over the globe	
10:45 am-11:00 am	Break	
11:00 am-12:30 pm	Wind Energy The Pacific Coast leads the continent in harnessing the power of wind energy. As the energy source continues to mature and become part of the standard energy mix, new approaches and challenges develop as industry leaders work to meet the increasing consumer demand for wind. Moderator: Robert Grott, Executive Director Northwest Environmental Business Council Speakers: Sara MacIntyre, Director, Public Affaris & Corp. Communications NaiKun Wind Development Tim Hennessy VRB Power, Vancouver Robert Hornung (invited) President - CanWEA Erin Anderson, Stoel Rives, The Law of Wind	Sustainable production There’s no question hydrocarbons are and will be the major portion of our energy mix now and into the future, making it imperative to pursue new, cleaner technologies. Hear about the innovations in petroleum development and production that are reducing environmental impacts in significant ways. Moderator: Colleen Killingsworth, President Canadian Centre for Energy Information Speakers: George Eynon, VP Business. Development Canadian Energy Research Institute Eddy Isaacs Alberta Energy Research Institute TBC EPCOR TBC BP
	The 3-Minute Pitch Hear from the entrepreneurs and innovators who are bringing the newest technology to market all over the globe	

Pacific Coast Clean Energy R&D Forum DRAFT AGENDA

Thursday, November 29, 2007

<p>12:30 pm-1:45 pm</p>	<p>Luncheon Address Federal initiatives and programs Pradeep Kharé, Regional Director General Environment Canada, Pacific and Yukon Region</p> <p>Elin Miller, Regional Administrator Environmental Protection Agency, Region 10</p>	
<p>2:00 pm-3:30 pm</p>	<p>Conservation & Efficiency The cheapest and cleanest next kilowatt is always the one acquired through conservation. Increasing consumer efficiency and managing our ever-increasing demand for energy plays a major part in energy security and environmental sustainability. Hear about the latest developments in conservation and efficiency for customers of all sizes.</p> <p>Moderator: Mike Weedall, VP Conservation & Efficiency Bonneville Power Administration</p> <p>Speakers: Gerry Braun California Energy Commission</p> <p>Andrew Pape-Salmon, Manger, Energy Efficiency British Columbia Ministry of Energy, Mines and Petroleum Resources</p> <p>TBC, US EPA</p>	<p>Managing the Grid Distributed generation, smart meters, new technologies for managing the grid – our interconnected system needs coordination and investment to bring new, cleaner alternatives into the energy mix. As a global leader in IT, the Pacific Coast can lead the way in the next generation of grid design and management. Learn more about projects underway today and what the demands will be tomorrow.</p> <p>Moderator: Rep. Jeff Morris, WA</p> <p>Speakers: Bud Krogh Northern Lights Transmission</p> <p>Roland Schoettle Optimal Technologies</p> <p>Brian Moghadam, Manager Business Development Powerex (invited)</p> <p>TBC, Pacific Northwest National Laboratory (invited)</p>
<p>3:30 pm – 4:30 pm</p>	<p>Bullpen Session Regional Initiatives and State and Provincial Trends – ask the policy makers States and provinces continue to find ways to work together on regional environmental initiatives. This town-hall formatted session will highlight the successes and challenges in developing effective regional approaches to this global issue.</p> <p>Moderator: Jim Baumgartner, Honorary Consul for Canada in Oregon</p> <p>Speakers: Janice Adair, Staff Coordinator (invited) The West Coast Initiative</p> <p>Michael Grainey, Director Oregon Department of Energy</p> <p>Rep. Jeff Morris PNWER Energy Horizons</p>
